THE HERALD, " 1891; OCT. 17, 1903.

HONDO, MEDINA COUNTY, TEXAS, SATURDAY, MAY 29, 1915.

VOL. 29. No. 43

Died.

A deep shadow of gloom was cast over this community Monday when the grim reaper, Death, invaded the home of Mr. A. T. Forst and took the spirit from the body of his wife, Mrs. A. T. Forst.

In some unaccountable manner Mrs. Forst contracted blood poisoning and suffered three weeks before death relieved her.

The remains were interred Tuesday afternoon at four o'clock in the new cemetery, Rev. A. Falkenberg, of the Lutheran church, officiating. A large cortege of mourning relatives and friends showed their love and respect by attending the funeral.

Mrs. Forst (nee Balzon) was born at Quil Jan. 4, 1857. Nov. 9, 1872 she was married to Harm de Grodt. This union was blessed with six children, three boys and three girls, one boy died in infancy. The surviving children are Ben de Grodt, Mrs. Annie Filleman of El Paso, Mrs. Ida Bless of San Antonio, Mrs. Lena Buss of New Fountain and Fritz de Grodt.

Mr. de Grodt died in 1896, and Dec. 2, 1902, she was happily married to A. T. Forst, who survives her.

About six years ago Mr. and Mrs. Forst moved from their ranch on the Verde and have since resided in the north part of town.

Besides the grief-stricken husband and loving children the deceased is survived by numerous other relatives.

The Anvil Herald joins in extending sympathy to the bereaved ones.

The two-year-old son of Mr. and Mrs. Otto Burelli died at two o'clock Tuesday afternoon and was buried Wednesday afternoon in the new cemetery, Rev. A. Falkenberg, pastor of the German Lutheran church, officiating at the obsequies. The parents and other relatives have the sympathy of their many friends in their bereavement.

A baby boy was born to Mr. and Mrs. Will Breiten at 8:30 p. m. Wednesday and departed this life at 6 o'clock Thursday morning. The little firm was laid to rest in the Woodmen of the World cemetery at 5 o'clock Thursday afternoon. The entire community extends condolence to the mourning parents.

Alumni Entertains Graduates.

The alumni of the Hondo High School delightfully entertained the graduating class at the beautiful home of Mr. and Mrs. Olin Lacy last Tuesday evening.

Different games and contests were wholesomely enjoyed.

The following toasts were delivered: "To Seniors," Prof. Ransome; "To the Hostess," Miss Yarborough; "To the Trustees," Prof. Peterson; "To the Alumni," Miss Darden.

Refreshments of punch, ice cream and cake were served.

The following were present: Mr. and Mrs. J. G. Newton, Dr. and Mrs. R. P. Thomas, Mr. and Mrs. L. J. Brucks, Prof. Peters, Prof. and Mrs. Peterson, Prof. Ransome, Misses Darden, Yarborough, Sanders, Walker, Locklin, Smith and Stone, Misses Johanna Kothe, Emabel Rogers, Hilda Muench, Bessie Mae Chaney, Nettie Woods, Evelyn de Montel and Sterling Fry, Frank Jungman, Luther Peterson, Wesley McClaugherty, Ralph Windrow, Percy Locklin, Arthur Jungman, Fred Brucks, Guido Richter and Leo Schweers, Misses Belle Hancock, Ruth Peterson and Jennie Mae Dowdy; Rev. and Mrs. Marlin, Mr. and Mrs. D. W. Short, Mr. and Mrs. E. W. Lacy, Mr. and Mrs. J. R. Chaney, Mr. and Mrs. C. Barnes; Hugo Schweers, Ormish Flv, Misses Emma Muenich, Jennie Woods, Myrtle Ulbrich, Eulah Cameron and Pansy Cowan.

The Melodious Seniors.

Truly the college spirit has taken hold of Hondo at last. For the past two weeks the Seniors have been doing their best to make the town realize that they are graduating and the joy of last Wednesday was a fitting climax for the season. At four o'clock five cars of teachers and seniors left for a picnic on the Hondo. Just before dark the crowd spread its wings which consisted of every thing young folks like to eat. After everything had made themselves as uncomfortable and miserable as possible, the crowd stood on the bridge in the twilight and listened to their melodious voices drift down the Hondo.

At about nine-thirty the revelers started for town and kept up their rification as long as Madame Grundy would permit.

CONTRIBUTED.

Hondo 9-Sabinal 3.

Hondo's war artists made a trip to Sabinal Tuesday and walked that team good and proper. Final results as above.

Sabinal's pitcher was as wild as the proverbial March hare, presenting Hondo with several tallies they didn't earn, but perhaps it is well he couldn't find the plate any oftener as the Hondoites lived on their hitting clothes, and when Sabinal's beaver got the sphere any where near the plate they hit it a mile.

Omitting errors, etc., Hondo played the best ball and on this day could have won over most any small town team, for Brad had everything and was only scored on when he or the rest of the team went in a trance.

It was rather a tiresome game, but served to fatten the batting averages of the Hondo boys, especially Starnes, who got three out of four up, and Filleman, who got two but of three up. This youngster Filleman, by the way, promises to develop into a real sure enough ball-player, he is undoubtedly the best infielder ever developed by Hondo, is fast, has natural speed and ability, and with old heads on each side of him, such as Ezzell and Starnes, he ought to get better right along, if he doesn't fall into the rut of nearly all youngsters, and, thinks he knows it all, gets the swell-head.

Ransome, Ezzell, Starnes and Filleman played good ball, although every member of the team had plenty of pep and to spare.

Ezzell stole home in the sixth, but the umpire couldn't see it that way.

It was a fairly good game, much better than the score indicates, for Sabinal is dangerous all the time, and is liable to develop a hitting streak any time, and they are never beaten until the third out in the ninth. They promise to have a different team when they show here in a week or two, as they have several strong players who were not able to play in this game.

Batteries: Hondo, Bradley and Goff; Sabinal, Martin and Gray.

Umpire: Briggs of Sabinal.

CONTRIBUTED.

Senior Class Entertained.

The Senior Class of the High School was entertained by Guido Richter at the hospitable home of Mr. and Mrs. Robt. Richter last Friday, May 21st at 8:30 o'clock. The house was artistically decorated in gold and black and sunflowers.

The class and company motored out to the home and were graciously received. After all had arrived a few interesting games were played.

Selections of songs and music were delivered by Misses Abbie Bradley, Nellie Wilson and Lola Buchanan.

Refreshments of delicious sherbert, cakes, candies and punch were served.

At a late hour all present expressed themselves as having the best time of any of their many receptions.

Those present were: Misses Nettie Woods, Ruby Nowlin, Nellie Wilson, Lola Buchanan, Abbie Bradley, Ruth Peterson, Jennie Mae Dowdy, Ruth Chaney, Belle Hancock, Mantadelle Yarborough, Hallie Walker, Mrs. P. B. Peterson, Messrs. Elbert de Montel, Percy Locklin, Ralph Windrow, Wesley McClaugherty, Arthur Jungman, Luther Peterson, Eric Peterson, Fred Brucks, Leo Schweers, Caughey Horger, Frank Jungman, Hugo Schweers, Edgar Stiegler, Profs. P. B. Peterson, Rufus Ransome and Oscar Peters.

The Airdome Opens.

A large crowd of people from all over the county attended the opening of Hondo's beautiful new amusement resort last Saturday night.

Mr. Martin, the enterprising proprietor of the Airdome, in a few well chosen words, introduced County Judge R. J. Noonan. Judge Noonan lauded the picture show and park very highly, and, among other things, said that the Airdome would be a credit to a city ten times as large as Hondo, and called upon the citizens to patronize it liberally so as to make it a paying proposition for Mr. Martin, thereby assuring its permanency.

Judge Noonan then introduced our talented young county attorney, Elmer de Montel, by saying that Mr. de Montel, being a strong and enthusiastic advocate of woman suffrage, would talk in behalf of that cause. Mr. de Montel then followed with a brief and instructive address on woman suffrage.

Besides the talks, seven reels of good pictures were shown. Everybody enjoyed the show and went away with words of praise for Hondo's great "white way."

Making Economy Record.

With seven more days to go the 150-mile-a-day Saxon roadster which is engaged in a severe thirty-day test over some of Michigan's worst roads, checked in, the speedometer registering 3,450 miles for twenty-three days since the machine started April 26.

Driver J. Eckert reported, on checking in, that the car is showing a daily average of forty miles to the gallon of gasoline and seventy-five miles to the pint of oil. If the present average continues this thirty-day car will establish an economy record never equalled in any other test of similar length and severity. The gasoline cost for the 3,450 miles covered to date has been \$9.46 and the expense for oil has been \$3.45, a total of \$12.91, or an average of less than two-fifths of a cent per mile for operation cost.

The thirty-day machine is holding up over the rough roads and no mechanical troubles have been experienced. A solid week of heavy rains turned the primitive roads into veritable quagmires, but the car showed its power in every emergency and pulled through without difficulty. The motor carries an accumulation of oil and dust that have not been disturbed since the run started and bear witness to the fact that nothing has been done to the engine.

The Saxon that is making this run has attracted unusual interest in and around Detroit, the automobile center. It is going over many roads and up many hills every day that provide a hard test for automobiles. In fact, some of the roads covered are but rarely used by motorists. They are nothing more than wagon tracks through deep sand for long stretches at a time, and therefore automobiles are accustomed to making detours and taking the long way round in each instance, rather than go through these stretches.

Each day's run starts and ends in Detroit. The car operates over two circuits, alternating between them. The courses as laid for the 150-mile-a-day machine lead over the worst roads in half a dozen Michigan counties within a radius of forty miles of Detroit.

Saxon Six, \$785; Saxon Roadster, \$395; Chalmers Six, \$1499. We have a Saxon Roadster on demonstration, come and see it.

CITIZENS MOTOR CAR CO.,

Does it Pay to Raise Good Steers?

Frio Town, Tex., May 22, 1915.

Mr. Frank Brown, Elstone, Texas.

DEAR SIR: On Wednesday were sold the load of our Angus steers, weight 1,240, at 8.50. Fed silage and cold pressed cotton seed from January 1st until April 20; then cotton seed reduced and corn added to replace cotton seed reduced until May 13.

We raised everything but the cold pressed cotton seed, cattle and iron. They were sired by Elstone and Irona Ducal. Up to the day they sold they were the highest priced cattle ever on the St. Louis market from South Texas; since then Ed. C. Lasater got 8.60 c. w. t. for some 1,275 pound cattle. I took some pictures of these cattle, and also of red bunch, and will send some of them to you as soon as they are out. The red cattle weighed 1,175, at 8.15—quite a bit difference in price.

How many of these bulls have you left? I think I can buy all of them. If you have no yearling bulls book me for 8 or 10 calves, this years crop.

Yours very truly,
G. A. BLACKALLER.

Farmers Union Notice.

The next regular meeting of the Medina County Farmers Union will be held at New Fountain Saturday, June 5th. Local Unions please take notice.
AUG. G. BIPPERT, Sec.

Hondo 3. Third Artillery 1.

Hondo beat the Third Artillery team of Fort Sam Houston on the home diamond as above score.

As a ball game it was a humdinger—both teams playing real real base ball, but Jake Miller had the class and won his game without a question, and the large crowd was pleased with every inning. Each side made several double plays. The one in the eighth, when Jake seemed to be in bad by waiking a couple, was the feature event. Ezzell scooped up a hot one, made a force-out at his station and rammed it to first for a third out.

Ezzell was easily the star of this game, his batting and base-running being first class; he made two nice hits and stole four bases. His steal home, when the soldier boys were looking out of the window, was great.

Windrow made a nice pickup out of the grass roots, but couldn't field it home in time to prevent the lone tally of the soldiers. Willie also made a nice, clean, three-bagger which helped some, as it put the game on ice.

It was the best and cleanest game of the season. The soldier boys played hard and put up a good game, their behavior was excellent, both on and off the field, and Hondo, both players and spectators, hope that they will come back again in the near future.

Batteries: Hondo, Miller and Goff; soldiers, Holbrook and Kennedy.

Umpires: Smith and Minard.

Hondo will play Devine at Hondo next Thursday, and they expect another hard game, as Devine has a real sure enough ball team.

CONTRIBUTED.

Card of Thanks.

We wish to express our sincere thanks to our friends for the assistance, kindness and sympathy shown us during the illness and death of our dear wife and mother, Mrs. A. T. Forst.

Gratefully,
THE FAMILY.

The P. E. O. Entertains.

The attractive home of Mesdames Meriwether and Goff was the scene of great enjoyment on last Monday evening, when the P. E. O's. entertained in honor of their youngest member, Miss Verna Mae Hudspeth's, wedding.

The interesting game of "Bride" was enjoyed until late in the evening when the folding doors were thrown open and the guests ushered into the dining room, which was lighted by wax tapers in golden candle-bras, and artistically decorated with ferns, daisies, cupids and stars, the latter being the emblem of the Sisterhood. Mrs. Dowdy, with a most beautiful and impressive little speech, presented the bride to be, with a handsome cut glass water sets which she received and responded to in her usual sweet and charming manner.

After a number of enjoyable musical selections had been rendered, the guests bid the charming hostesses good night and repaired to their homes.

CONTRIBUTED.

The Revival Meeting.

The Holiness meeting which has been in progress in a tent on College Square during the past two weeks, closed Sunday night.

Mesdames Williams and Harrell conducted the services, and drew large and enthusiastic congregations every night. Both of the ladies are forceful and intelligent speakers and impressed everyone with their zeal and earnestness.

We are informed that there were over one hundred converts, and that services will be held in the old Baptist church building by Rev. J. T. Horger, at regular dates in the future.

Notice Stockmen.

I will stand my Jack at my ranch, 16 miles north of Hondo, for \$9.00 and assure colts.

34-3mo BEN DE GROOT.

Some Patriotic Corn.

M. L. Sauthoff was here Monday from the hills and presented the editor of this paper with some specimens of corn, an ear of red, one of white and one of blue. Emperor Bill need not depend upon Mimke helping him out of his difficulties for he is so intensely American that he even carries Uncle Sam's color scheme of red, white and blue into the growing of corn. After this tangible evidence of Mr. Sauthoff's devotion to the Colors no matter what high crimes and misdemeanors we may accuse him of in the future we will never say he is no patriot.

Attention Parents.

It is requested by Mr. J. G. Newton, scholastic census enumerator for the Hondo Independent School District, that you notify him immediately of any scholars who may not have been enumerated so he can enroll them. Attend to this at once, as it will be too late after the first of June.

Methodist Church News.

Rev. C. S. Long, pastor of the Presbyterian church, will occupy the pulpit at the Methodist church at 11 a. m. and 8:15 p. m., next Sunday. The pastor, Rev. J. M. Alexander, will be in Del Rio on that day.

JNO. M. ALEXANDER, P. C.

Card of Thanks.

We take this means of extending our heartfelt thanks to our neighbors and friends for their kindness and sympathy in our sorrow over the loss of our darling little son.

Respectfully,

MR. AND MRS. OTTO BURELL.

Hudson Triangle

The HUDSON Triangle trade-mark on the radiator of your car is worth MANY DOLLARS to you. Don't look on it as a mere "advertisement" of the maker, or as an ornament.

When you come to sell or trade in your car—as most motorists do sooner or later—you will be delighted to see how this "Triangle on the radiator" will appeal to the buyer as an evidence of ABSOLUTE VALUE.

Every automobile owner knows that a HUDSON SIX is about ten times as easy to sell as any other high-grade car on the market. And everyone knows also that you get for it a much higher price than you do for other cars.

We heard of an owner who said: "I am not going to have an advertisement of the maker on my car." Whereupon he tore off the enamel triangle and drove his car a year without it. Then he wanted to get a new car. And he had a chance to sell his old one. The prospective buyer didn't know much about motor-cars. He could not recognize them by looks, etc. He hesitated a long time. Finally he discovered that there was a place on the radiator where something had been removed. He asked what it was and was told that it used to show the HUDSON TRIANGLE. He bought the car ON THE SPOT. And the next day came to the HUDSON dealer to have a new enamel triangle placed on the radiator.

That shows what a HUDSON trade-mark is worth.

It is worth that because the HUDSON has proven to its owners and the public, that it is the car that DELIVERS THE GOODS. There is no guess-work, no experimenting, no "hoping" about the HUDSON SIX. You KNOW just what it is, what it has done, what it will do for you, what it is worth.

Come in and let us give you a drive in the HUDSON SIX.

A Barbed Wire Cut, Collar or Saddle Girth not properly healed leaves a disgusting scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleaned and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that is not only on the surface but reaches the very heart of the wound. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

James F. Ballard, Prop., St. Louis, Mo.

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Hondo readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

Mrs. M. J. Ruff, Clay St., Kerrville, Texas, says: "I am glad to publicly recommend Doan's Kidney Pills, as they did all that was claimed for them. A member of my family has used two boxes of this medicine and has received good results. The one I am telling about had kidney trouble and bad spells with the back and couldn't lift or bend. The action of the kidneys was irregular and there were many other symptoms of kidney complaint. Doan's Kidney Pills brought entire relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ruff recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

So oft the doing of God's will
Our foolish wills undoeth
And yet what idle dream breaks ill
Which morning light subdueth;
And who would murmur or misdoeth
When God's great sunrise finds him
out?
—Elizabeth Barrett Browning.

Chamberlain's Liniment.

This preparation is intended especially for rheumatism, lame back, sprains and like ailments. It is a favorite with people who are well acquainted with its splendid qualities. Mrs. Charles Tanner, Wabash, Ind., says of it, "I have found Chamberlain's Liniment the best thing for lame back and sprains I have ever used. It works like a charm and relieves pain and soreness. It has been used by others of my family as well as myself for upwards of twenty years." 25 and 50 cent bottles. For sale by All Dealers.

Little grains of short weight,
Little crooked twists,
Fill the land with magnates
And philanthropists.

Sick Headache.

Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and drowsiness, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. She says, "I found them pleasant to take, also mild and effective. In a few weeks' time I was restored to my former good health." For sale by All Dealers.

When men are rightly occupied their amusement grows out of their work, as the color petals out of the fruitful flower.

Whooping Cough.

"About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing spells. I continued this treatment and was surprised to find that it cured the disease in a very short time," writes Mrs. Archie Dalrymple, Crooksville, Ohio. For sale by All Dealers.

Too much success is as bad as too little. Many a man's success has turned his head because it was too easy.

For a Torpid Liver.

"I have used Chamberlain's Tablets off and on for the past six years whenever my liver shows signs of being in a disordered condition. They have always acted quickly and given me the desired relief," writes Mrs. F. H. Trubus, Springfield, N. Y. For sale by All Dealers.

Work gets a better flavor if we regard it as a sort of a sport, the zest of which is the effort to excel.

A child can't get strong and robust while intestinal worms eat away its vitality. To give the child a chance to grow these parasites must be destroyed and expelled. White's Cream Vermifuge is guaranteed to remove the worms; it also puts the vital organs in healthy, vigorous condition. Price 25c per bottle. Sold by W. H. Windrow.

Get today's work done this morning—tomorrow's this afternoon—but don't loaf tomorrow.

Stiff neck is not only painful but annoying. To get rid of it quickly rub the affected part with Ballard's Snow Liniment. It penetrates the flesh and relaxes the muscles so that the pain ceases immediately. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

Calling woman man's better half is an acknowledgment that it takes a woman to make a man.

Piles Cured in 6 to 14 Days

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. The first application gives ease and rest. 50c.

It's easy to build air castles; but the work comes in getting solid foundations under them.

When your food does not digest well and you feel "blue," tired and discouraged, you should use a little Herbine at bedtime. It opens the bowels, purifies the system and restores a fine feeling of health and energy. Price 50c. Sold by W. H. Windrow.

Be ambitious. To rest content with results achieved is the first sign of retrogression.

To Drive Out Malaria

And Build Up The System
Take the Old Standard GROVE'S TASTELESS chill TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents.

No one is useless in the world who lightens the burden of it for anyone else.—Dickens.

For cholera morbus, cholera infantum, diarrhoea from colds, and wind colic, McGee's Baby Elixir is a remedy of extraordinary power, it relieves colic pains instantly, checks diarrhoea and settles the disordered stomach. Price 25c and 50c per bottle. Sold by W. H. Windrow.

After a woman has been married five years you can't tell her anything about men.

If you belch up a bitter tasting liquid it is a sign of bad digestion. A dose or two of Herbine will correct the disorder. It stimulates digestion and purifies the bowels. Price 50c. Sold by W. H. Windrow.

There is only one saving virtue about a drunken man—he is a terrible warning to others.

For a burn or scald apply Chamberlain's Salve. It will allay the pain almost instantly and quickly heal the injured parts. For sale by All Dealers.

The greatest trouble some people have is to be listening to the trouble of others.

The Quinine That Does Not Affect The Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 25c.

When a man has a moral awakening he usually notices his neighbors sins first.

Cures Old Sores, Other Remedies Won't Cure
The worst case, no matter of how long standing, is cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

The ones that are not yours.

Invigorating to the Pale and Sickly

The Old Standard general strengthening tonic, GROVE'S TASTELESS chill TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

Good luck is the thing that goes with energetic, persistent effort.

Only One "BROMO QUININE"

To get the genuine, call for full name, LAXATIVE BROMO QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day. Stops cough and headache, and works off cold. 25c.

Those who do not save always buy at top prices.

Whenever You Need a General Tonic

Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

NOTHING BETTER FOR WEAK WOMEN

"I Never Spent Any Money That Did Me So Much Good as That I Spent for Vinol."

Bellefontaine, Ohio.—"I wish every tired, weak, nervous woman could have Vinol for I never spent any money in my life that did me so much good as that I spent for Vinol. My nerves were in a very bad condition, making me very weak, tired, and worn out and often drowsy headaches. I had tried cod liver oil, doctor's medicines, and other preparations without benefit.

"One day a friend asked me to try Vinol. I did and soon my appetite increased, I slept better and now I am strong, vigorous and well and can do my housework with pleasure."—Mrs. J. F. LAMBORN, Bellefontaine, Ohio.

Nervous, weak, tired, worn-out women should take Mrs. Lamborn's advice and try Vinol for there are literally thousands of men and women who were formerly run-down, weak and nervous, who owe their good health to Vinol.

It is the medicinal, tissue building elements of the cod's livers, aided by the blood making, strengthening influence of tonic iron, contained in Vinol, which makes it so efficient in all such cases.

KNOW THY COUNTRY

I—Introductory

"Know America" is a slogan that should ring out from every school room, office, farm and shop in this nation. No man can aspire to a higher honor than to become a capable citizen, and no one can merit so distinguished a title until he is well informed of the resources, possibilities and achievements of our country.

This is a commercial age and civilization is bearing its most golden fruit in America. We are noted for our industrial achievements as Egypt was noted for her pyramids; Jerusalem for her religion; Greece for her art; Phoenicia for her fleets; Chaldea for her astronomy and Rome for her laws. Likewise we have men who will go down in the world's history as powerful products of their age. For, standing at the source of every gigantic movement that sways civilization is a great man. The greatest minds travel in the greatest direction and the commercial geniuses of this age would have been the sculptors, poets, philosophers, architects, and artists of earlier civilizations.

As Michael Angelo took a rock and with a chisel hewed it into the image of an angel that ever beckons mankind upward and onward. Hill took the desert of the Northwest and with bands of steel made it blossom like a rose, dotted the valleys with happy homes and built cities in waste places. As Gutenberg took blocks of wood and whittled them into an alphabet and made a printing press that flashed education across the continent like a ray of light upon a new born world, McCormick took

a bar of iron and bent it into a reaper and with one sweep of his magic mind broke the shackles that enslaved labor of generations yet unborn, and gave mankind freedom from drudgery, and lifted the human race into a higher zone of life.

As Nelson organized the English navy and made England mistress of the sea, enabling the British Isles to plant her flag upon every continent washed by the ocean's waves, and to make footstools of the islands of every water, Morgan organized a banking system that has made America master of the world's finances, brought Kings to our cashiers' windows, the nations of the earth to our discount desks and placed under the industries of this nation a financial system as solid as the Rock of Gibraltar.

There is no study quite so interesting as progress; no sound so magic as the roar of industry and no sight so inspiring as civilization in action. A full realization of America's part in the great events of the world past, present and future will thrill every human heart with pride, patriotism and faith in Republican institutions.

Through the courtesy of the Agricultural and Commercial Press Service, the readers of this paper will be permitted to study America; her agricultural, manufacturing and mineral development, mercantile, banking and transportation systems which are the wonder of the world. The first article of the series will deal with transportation and will appear at an early date.

KNOW THY COUNTRY

II—Railroads

In discussing the commercial achievements of this great age, we shall approach the subject as the historian chronicling events. This series will endeavor to record in writing the supremacy of American men and industries in the world's affairs and perpetuate an appreciation of our marvelous industrial achievements by presenting simple facts, figures and comparisons that are overpowering in their convictions.

America holds her proud place among the nations of the earth today on account of her supremacy in transportation facilities. The mighty minds of the age are engaged in the problems of transportation, and the greatest men in the history of the world's commerce are at the head of the transportation systems of the United States.

In the discussion of transportation, let us consider separately our Railways, Telegraph and Telephone, Express, Public Highways, Steamships, Street Railways, Interurban and other forms of transportation, and this article will deal with railways.

The United States has the largest mileage, the best service, the cheapest rates, pays labor the highest wages, and we have the most efficiently managed of the railways of the world. They stand as a monument to the native genius of our marvelous builders, and most of the railroads in foreign countries have been built under American orders.

The railroads represent a larger investment of capital than any other branch of human activity. The mileage in the United States exceeds

the accepted distance from the earth to the moon. We had in 1911, the last year in which figures for all countries are available, on the earth's surface, 639,981 miles of railway divided as follows: United States 241,199, Europe 207,432 and other countries 191,350. The United States has 38 per cent of the world's mileage, seven per cent of the estimated population and about five per cent of the area. The total capital invested in the railways of the world is \$50,000,000,000, divided as follows: United States \$13,000,000,000, Europe \$25,650,000,000, and other countries \$11,350,000,000. Reduced to a mileage basis the capitalization is as follows: The world \$78,000, United States \$54,000, Europe \$124,000, and other countries \$59,000.

A comparison of rates is equally as interesting and the United States takes the lead in economy and service. The average rate per ton per hundred mile haul is as follows: United States 76c, Great Britain 25.5c, France 14.4c, Germany 14.4c, Russia 92c, Austria-Hungary 13.30c, Italy 22.30c and Switzerland 22.82c.

The average yearly pay of all railroad employees in the principal countries is as follows: United States \$757, Germany \$392, Italy \$345, Austria \$222, Great Britain \$279, France \$260 and Russia \$204.

About 30 per cent, or 188,000 miles, of the railways of the world are government owned. About half the railway mileage of Europe is government owned.

A comparison of the economy, in time and money and the convenience in travel, will be made in a later article.

KNOW THY COUNTRY

III—Telegraph and Telephone

Our transportation facilities are the most perfect product of this great commercial age and the telegraph and telephone systems of this nation crown the industrial achievements of the whole world. These twin messengers of modern civilization, born in the skies, stand today the most faithful and efficient public servants that ever toiled for the human race.

They are of American nativity and while warm from the mind of the inventive genius have, under American supervision, spun a net-work of wires across the earth and under the seas. Telegraphy, in its early youth, mastered the known world and the telephone has already conquered the earth's surface, and now stands at the seashore ready to leap across the ocean.

No industry in the history of the world has ever made such rapid strides in development and usefulness, and none has ever exerted a more powerful influence upon the civilization of its day than the Telegraph and Telephone. Their achievement demonstrates the supremacy of two distinct types of American genius—invention and organization.

The industry was peculiarly fortunate in having powerful inventive intellect at its source and tremendous minds to direct its organization and growth. It is the most perfect fruit of the tree of American industry and when compared with its European contemporaries, it thrills every patriotic American with pride.

Ambitious youth can find no more in-

spiring company than the fellowship of the giant intellects that constructed this marvelous industry and a journey along the pathway of its development, illuminated at every mile-post of its progress by the lightning flashes of brilliant minds, will be taken at a very early date.

A brief statistical review of the industry brings out its growth and magnitude in a most convincing and unforgettable manner.

The telephone service of the United States is the most popular and efficient and its rates are the cheapest of the telephone systems of the world.

We are the greatest talkers on earth. We send 60 per cent of our communications over the telephone. The world has about 15,000,000 telephones and of this number the United States has approximately 9,540,000, Europe 4,020,000 and other countries 1,300,000. According to the latest world telephone census, the total telephone investment is \$1,906,000,000 and of this amount \$1,095,000,000 was credited to the United States, \$636,000,000 in Europe and \$175,000,000 in other countries. The annual telephone conversations total 24,600,000,000 divided as follows: United States 15,000,000,000; Europe 6,800,000,000, and other countries 2,800,000,000. The total world wire telephone mileage is 23,262,000 miles divided as follows: United States 20,248,000, Europe 10,235,000, and other countries 2,679,000. About six per cent of the world's population and sixty-one per cent of the telephone wire mileage is in the United States.

THE BATTLE OF THE TIRES

(Agricultural and Commercial Press Service)
It is interesting to watch the forces of civilization battling for supremacy. The struggle now going on between the rubber and the iron tire promises to be the liveliest contest of the Twentieth Century.

The struggle is a silent one and there are no war correspondents to write vivid descriptions of the conflict but the results are more far-reaching to present and future generations than the war of Europe.

The rubber tire has been maneuvering for point of attack for several years and has captured a few important positions in traffic, but it has now pitched a decisive battle with its iron competitor by hurling a million "jittneys" at the street railways and the battle is raging from ocean to ocean. Upon the result of the struggle depends the future of the rubber tire. If it is compelled to retreat, its doom is sealed, but if it wins the battle it will revolutionize the transportation methods of this nation.

If the rubber tire conquers the street traffic its next struggle is with the railroads of the country, and then the greatest battle between economic forces ever fought out on the face of this earth is on, for iron is the undisputed master in transportation, and is fortified behind billions of dollars, and millions of men.

Stephenson applied the steel tire to an iron rail in 1814, but it was 1869 before the golden spike was driven at Promontory Point, which bound the country together with bands of steel. It took the iron tire fifty-five years to creep from ocean to ocean, but the rubber tire while warm from the creative mind of the inventive genius sped across the continent like an arrow shot from the bow of Ulysses. The roadbed was already prepared and therein lies the power of the rubber tire over that of iron, for government builds and maintains the public highway.

But iron is a stubborn metal and it has mastered every wheel that turns; has fought battles with every element above and beneath the earth and has never tasted the wormwood of defeat, and when rubber hurled its full force against this monarch of the Mineral Kingdom, it may rebound to the factory stunned beyond recovery.

The rubber tire first made its appearance on the bicycle, but it proved a frivolous servant and was dismissed for incompetency. It has always been too much inclined to revel in luxury to be taken seriously as a utility machine and its reputation is not one to inspire confidence in heavy traffic performance.

But to those who care to waft into dreamland, it is enchanting to note that there will be a marvelous difference between a rubber and an iron age. The rubber tire will scatter the cities throughout the valleys for with transportation at every man's door, why a city? It will traverse the continent with a net work of Macadam highways as beautiful as the boulevard built by Napoleon. It will paralyze the law making bodies of this nation for how could the legislatures run without the railroads to operate on?

FEDERAL INDUSTRIAL COMMISSION

By Peter Radford.

The recent investigation of the United States Commission of Industrial Relations brought together the extremes of society and has given the public an opportunity to view the representatives of distinct classes, side by side, and to study their views in parallel columns.

Capital and labor have always been glaring at each other over gulfs of misunderstanding and if the Federal Industrial Commission attempts to bridge the chasm, it will render the public a distinct service.

The farmer has been sitting on the fence watching capital and labor fight for many years and incidentally furnishing the sinews of war and it is quite gratifying to find them talking, instead of about, each other. When honest men smile and look into each other's souls, it always makes the world better and far more satisfactory to the farmer, who in the end bears the burden of conflict, than resolutions, speeches or pamphlets containing charges and counter-charges.

The love for justice makes the whole world kin. Understanding is an arbiter far more powerful than the mandates of government, for there is no authority quite so commanding as an honest conscience; there is no decree quite so binding as that of the Supreme Court of Common Sense and no sheriff can keep the peace quite so perfect as Understanding.

We suppose the time will never come when capital and labor will not be occasionally blinded by the lightning flashes of avarice or frightened by the thunder peals of discontent. But Understanding is a Prince of Peace that ever holds out the olive branch to men who want to do right. A man's income is always a sacred thing for in it are the hope, ambition and opportunity of himself, and family, but there is nothing in a human head quite so divine as Justice and Understanding is its handmaiden.

MISSION OF THE RURAL CHURCH

SHOULD BE UNIVERSITY OF RELIGIOUS LEARNING.

Duty of Christianity to Evangelize the World.

By Rev. Jno. A. Rice, D. D.
Pastor St. John M. E. Church, South, St. Louis, Mo.

Some years ago, the question was asked: What is a college? The attempt to answer it shook the educational world in America from center to circumference. Another question is now beginning to be asked: What is a church? Without undertaking to give a definition of it, let me ask, in this initial paper, what the church is for? The New Testament reveals three distinct tasks to which it is committed.

First, that of evangelization. The church is divinely commissioned to reach for the lowest and the least man in the least land and offer him a divine power, which lifts him out of the bog and places him upon the highest levels of human life, where God and the soul are in fellowship. This alone were an immense privilege.

Teaching the Art of Living.

The church is commissioned also to teach and train those who are rich with its evangelistic message. The term, Religious Education, has come to mean a specific thing in our country, namely, the training of the people in the local church in those deep matters which pertain to the art of living. I am not now speaking of the work of education in schools, colleges and universities, but the work of education at our doors, in the congregation. Every agent in reach should be employed to the utmost in this important mission. Indeed, the local church could be made a sort of university for all the people, in which the simple, practical arts and virtues of everyday life should be taught and enforced. Only recently has this special phase of the church's work received anything like adequate attention. The New Testament word for it is Edification.

School of Religion Needed.

Of course, the Sunday School is the center for all this work, although the activities of the church should extend through the entire week and the Sunday School should cease to be so named. It should be called the School of Religion or the Church School or something else that indicates it to be an all-the-week activity. During this time various and sundry clubs, classes, musical organizations, culture courses, as well as distinctly religious meetings, should be held. Thickly settled neighborhoods, as we shall see, offer fine opportunities for the development of things spiritual.

The third task to which the church is committed is that of Christianizing the social order, that of infusing the spirit of Jesus into every nook and corner of our life. Nothing is foreign to the interest of the church.

Neighborly Love Essential.

If religion pervades and colors the whole life then ours is serious business, for it will let no corner of the world escape its influence. The sooner we learn that Christianity is not a thing to be practiced in a corner the better for the world. The question of the eighteenth century, touching Christianity, was, Can it be made to square with the human reason? Of the nineteenth, Can it be made to square with the results of scientific research? Of the twentieth, What can it do? We must learn to enforce not only love of God, whom we cannot see, but love to our neighbors, with whom we are living in constant contact. Neither without the other is Christianity whatever else it may be. Everything that interests his neighbors most interest him, if he is a genuine follower of the Christ.

It is the mission of the church—the rural as well as the city—to evangelize the whole world, to train to the highest degree of efficiency those whom it evangelizes and to seek to make the spirit of Jesus the absolute rule in all human relations.

It is an admitted economic fact that there can be no permanent prosperity without a permanent agriculture.

THE NATION'S DINNER TABLE

When the dinner bell of this nation rings there have been slaughtered for the repast 12,900 hogs, 21,000 hogs, 4,660 sheep, 2,000 hundredweight of poultry and other meats, and there have been 700,000 bushels of cereals and 540,000,000 pounds of vegetables prepared for the feast. Multiply these quantities by one thousand, representing approximately the number of meals per annum and we have the annual contents of the nation's larder. But with all our immense quantity, superb quality and wide range of products, the American housewife, like the wife of King Nebuchadnezzar, longs for variety and she goes marketing in foreign lands. She buys abroad \$300,000,000 per annum of farm products that can and should be produced in the United States.

WHY IS WOMAN RESTLESS?

DESTINY OF NATIONS DEPENDS UPON CONTENTED HOMES.

By W. D. Lewis.

President Texas Farmers' Union.

Why is woman restless under the crown of womanhood? Why is she weary of the God-given jewel of motherhood? Is it not a sufficient political achievement for woman that future rulers nurse at her breast, laugh in her arms and kneel at her feet? Can ambition leap to more glorious heights than to sing lullabies to the world's greatest geniuses, chant melodies to master minds and rock the cradle of human destiny?

God pity our country when the hand-shake of the politician is more gratifying to woman's heart than the patting of children's feet.

Woman is Ruler Over All.

Why does woman chafe under restraint of sex? Why revile the hand of nature? Why discard the skirts that civilization has clung to since the beginning of time? Why lay aside this hallowed garment that has wiped the tears of sorrow from the face of childhood? In its sacred embrace every generation has hidden its face in shame, clinging to its motherly folds, tottering children have learned to play hide and seek and from it youth learned to reverence and respect womanhood. Can man think of his mother without this consecrated garment?

Why this inordinate thirst for power? Is not woman all powerful? Man cannot enter this world without her consent, he cannot remain in peace without her blessing and unless she sheds tears of regret over his departure, he has lived in vain. Why this longing for civic power when God has made her ruler over all? Why crave authority when man bows down and worships her? Man has given woman his heart, his name and his money. What more does she want?

Can man find it in his heart to look with pride upon the statement that his honorable mother-in-law was one of the most powerful political bosses in the country, that his distinguished grandmother was one of the ablest filibusters in the Senate or that his mother was a noted warrior and her name a terror to the enemy? Whither are we drifting and where will we land?

God Save Us From a Hen-Pecked Nation.

I follow the plow for a living and my views may have in them the smell of the soil; my hair is turning white under the frost of many winters and perhaps I am a little old-fashioned, but I believe there is more moral influence in the dress of woman than in all the statute books of the land. As an agency for morality, I wouldn't give my good old mother's home-made gowns for all the suffragette's constitutions and by-laws in the world.

As a power for purifying society, I wouldn't give one prayer of my saintly mother for all the women's votes in Christendom. As an agency for good government, I wouldn't give the plea of a mother's heart for righteousness for all the oaths of office in the land.

There is more power in the smile of woman than in an act of congress. There are greater possibilities for good government in her family of laughing children than in the cabinet of the president of the United States.

The destiny of this nation lies in the home and not in the legislative halls. The hearthstone and the family Bible will ever remain the source of our inspiration and the Acts of the Apostles will ever shine brighter than the acts of Congress.

This country is law mad. Why add to a statute book, already groaning under its own weight, the hysterical cry of woman? If we never had a chance to vote again in a lifetime and did not pass another law in twenty-five years, we could survive the ordeal, but without home civilization would wither and die.

God save these United States from becoming a hen-pecked nation; help us keep sissies out of Congress and forbid that women become step-fathers to government, be the prayer of the farmers of this country.

A DIVINE COVENANT.

God Almighty gave Eve to Adam with the pledge that she would be his helpmeet and with this order of companionship, civilization has towered to its greatest heights. In this relationship, God has blessed woman and man has honored her and after four thousand years of progress, she now proposes to provoke God to decay man by asking for suffrage, thereby by amending an agreement to which she was not a party.

Woman, remember that the Israelite scorned a divine covenant, and as a result wandered forty years in the wilderness without God. Likewise man should remember that it is a dangerous thing to debase woman by law. Rome tried lowering woman's standard and an outraged civilization tore the clothes off the backs of the human race and turned them out to roam in the world naked and ashamed.

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles?

Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows.

Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat.

Scott's is prescribed by the best specialists. You can get it at any drug store.

Scott & Bowne, Bloomfield, N. J.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

THIS is unquestionably the most successful medicine in the world for the recognized standard over a large part of the civilized world. Every man of a family should keep this remedy in his home. Buy it now. It may save life. Price, 25c. Large Size, 50c.

Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich.

"I have suffered with pains in my back and under my shoulder blades for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

A Place for Sheep on the Farm.

The United States Department of Agriculture urges the desirability of maintaining a small flock of sheep upon the farm. With proper care and attention a flock of 25 or 30 ewes can be kept at very little expense, and they will prove of inestimable value in freeing the farm from weeds and adding something to the farm income. In addition to providing a considerable supply of wholesome food for the farm table, there will be a surplus for sale, and an additional item of revenue in the form of wool.

Many farmers make a practice of buying ewes in the fall, breeding them and selling the lambs the following summer. Such ewes can be carried through the winter on wheat and rye fields if not pastured too closely, or on clover hay with some roots and a little linseed meal. If the clover hay is not available, corn fodder may be used as roughage, in which case it should always be supplemented with bran or linseed meal. Lambs should come early and should be taught to eat as soon as they are old enough. Give lambs access to corn by providing a creep through which they can go without allowing the ewes to follow.

For farm purposes the black-faced ewes are more popular than the others, although good results can frequently be obtained from the white faced ones. In buying ewes, be sure that they stand well on their feet, have good straight backs and good mouths. Ewes that have broken teeth or teeth that are badly worn down should not be bought. As a rule, a sheep has one pair of permanent incisor teeth when it is 1 year old, two pairs when it is 2 years old and three pairs, or a full mouth, when it is 3 years old. A full-mouthed ewe, if the teeth are in good condition, can be used for breeding

LOSS OF POWER

and vital force follow loss of flesh, or emaciation. These come from impoverished blood. Dr. Pierce's Golden Medical Discovery enriches the blood, stops the waste of strength and tissue, and builds up healthy flesh. Thin, pale, puny and scrofulous children are made plump, rosy and robust by the "Discovery." They like it too.

In recovering from "Grippe," or in convalescence from pneumonia, fevers, or other wasting diseases, it speedily and surely invigorates and builds up the whole system. As an appetizing, restorative tonic, it acts at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

Beware of Ointments for Catarrh that Contain Mercury

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on severe cases, and they will do ten fold the damage they can possibly derive from them. HALL'S Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and cures without injury to the system. In buying HALL'S Catarrh Cure be sure you get the genuine. It is taken internally, and acts on the blood. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

with good results although she may be as much as 5 years old. Never buy a ewe that has a broken mouth—that is, with teeth that have been broken off or lost.

None but a pure-bred ram should be used. It is not necessary to have a show animal, but a strong, vigorous buck is essential. Shropshire, Oxford, Southdown, and Hampshire rams sire excellent mutton lambs, and these breeds are recommended for the farm States. A suitable ram can be bought for \$8 to \$20.

The two principal drawbacks to the sheep industry in the farm States are dogs and stomach worms. The dog nuisance can be obviated to a great extent by placing dog-proof fences around the pastures. The United States Forest Service has had excellent results in protecting sheep from coyotes and wolves by building fences constructed in the following manner: A barbed wire is first stapled to the posts right on the surface of the ground. Three inches above this is placed a panel of close-woven wire, 36 inches high, and above this two strands of ordinary barbed wire. Care should be taken to see that there are no openings between the ground and the lowest barbed wire. An inclosure made in this manner, into which sheep may be turned at night, is inexpensive, and dogs will not get through it. Most of the damage by dogs is done at night.

The presence of stomach worms is a very serious drawback. The young lambs become infested with them by eating grass to which the worms have attached themselves, the eggs being deposited by the mature sheep. It is therefore desirable to keep the lambs on land which the mature sheep have not run, and if possible, in cases of bad infestations, to keep the lambs away from the mature sheep as much as possible.

In the farm States the farmers will find it to their best advantage to regard the wool from the sheep as a by-product, and direct their principal attention to the production of lambs and mutton for the table.

This paper solicits the kindly consideration of all and will strive to treat all alike.

"The President of the Day" is the man to whom the officer of the day is accountable in Mexico. Who is he?—West Texas Magazine.

Yancey News.

The long, hot June days are approaching and it makes everything dull. A nice shower would be gladly welcomed as crops are beginning to need it.

Prof. Hickman and family attended the baccalaureate sermon at Devine Sunday. Nixon Wilson accompanied them.

Rev. Brandon accompanied Rev. Johnston to Frio Town, where quarterly conference was held Saturday and Sunday.

Those who attended church at Hondo from here Sunday evening were: Mr. and Mrs. H. L. Mofield, L. Mofield and family, A. G. Oefinger and wife, Mrs. H. N. Burgin and son, Chas., C. J. Wiemers and Ben Oefinger.

Misses Louise Kueck and Luella Burgin returned Sunday from San Antonio.

A grape hunt was enjoyed by people of Yancey last Saturday in Mrs. N. W. Ward's pasture on the Seco.

Miss Emma Wood and brother, John, were in Yancey Wednesday evening.

Henry Kueck and L. F. Fessler went to San Antonio Wednesday on business.

The merchants of Yancey have informed us that beginning on June 1st, they will close their stores at 7 p. m.

Misses Blanche McCaughan and Vera Williams visited Miss Gertrude Branden Wednesday.

W. W. McAnelly was here from the ranch Wednesday, after an absence of several months. Mr. McAnelly is farming this year and believes in staying with the work. He has two acres in Irish potatoes, of which he brought us a sample yesterday. They were of a real good size and he says they will bring a fair yield.

J. P. Nixon and family were shopping here Wednesday. Also Hugh Ward and family.

Mrs. James Jess Duncan and Logue Littleton were visiting here one day this week.

Farmers Institute Organized.

Fletcher Davis of the State Department of Agriculture organized a farmers institute Wednesday night in the school auditorium. Officers were elected, as well as delegates to the state meeting which convenes in Austin July 27, 28 and 29. Mr. Davis discussed with the members the marketing plan that has recently been taken up by the Department. It is as follows: Any member of a local institute who has any produce or agricultural products of any nature for sale may list the same with the home Secretary. He in turn sends this list to the Department. The list is then classified by the Commissioner of Agriculture, put in the form of a bulletin, and sent to the various Secretaries of the local institute to be posted for the information of its members. This is certainly an interesting and money saving feature, and no doubt will bring the producer and consumer into direct touch with each other, thus eliminating the profit of middle men who in many cases are anxious and willing to take more than their share of the profits.

It is planned by the institute to have Mr. Davis return some time in the near future for a several days stay in this community. Mrs. Barrett of the same Department will come with him at which time a general rally will be held. It is also planned to have Miss Rich of the University Extension Department with us to give some demonstration work in the canning of home products.

The following were the officers and delegates elected: Otto Braun, President; Fred Braun, Vice-president; F. R. Shanks, Secretary; Bert Milam, Entomologist. Mr. Milam and Mr. Otto Braun were elected delegates to the State meeting.—Moore Model.

The Wonder of Texas.

I, Frederick Metzger, an old war veteran of three wars, was born in 1833 and my wife, Louise Lange, was born in 1844. We were married in 1861 by Judge Quinlan, in the presence of Mayor Kampmann, Capt. Moye, Mr. Wagner, Mr. De Montel, Mr. Shleining, Hans Burney, Dewit Burney and 10 or 15 more friends and the Camp Verde band. The ceremony was performed at the residence of Mr. and Mrs. Lange at the Verde in Kerr County. I was 28 years old and Miss Louise Lange was 17 years old. We have lived together for 54 years as happily as any husband and wife could. On May 19, 1915, I was 82 years old and my wife is 71 years old. Now, we will change the figures, the 82 years to be 28 and the 71 years to be 17, or to make it plainer, take 54 years from 82 and it leaves 28, and take 54 years from 71 and it leaves 17. That is the wonder. There is not one in ten thousand couples like that in Texas. If there is, let me know, and you will hear from me.

FRED METZGER,
Hondo, Texas.

Our "Jitney" Offer—This and 5c.

Don't miss this. Cut out this slip, enclose with five cents to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup, Foley Kidney Pills, and Foley Cathartic Tablets. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

New Fountain Notes.

A small crowd attended the auction at Louis Metzger's yesterday afternoon but, never-the-less, he disposed of all of his furniture, implements and other things that were offered for sale.

Mr. and Mrs. Metzger will leave in a few days for New Mexico, and where they will in future reside. Our best wishes will go with them.

Miss Louisa Metzger of Hondo was here a few days' visiting Mr. and Mrs. Louis Metzger.

John Hartmann and Louis Heyen shipped a car of cattle to San Antonio yesterday. Mr. Hartmann accompanied the shipment.

Mrs. John Hartmann and children of Verdina were visiting in our burg today.

F. Senne and family of Yancey motored through our burg Sunday en route home from Sturm Hill, where they had been visiting Henry Schuehle and family.

Mr. and Mrs. Willie Poehler visited Mr. and Mrs. Alfred Schlenz at the upper Hondo Sunday.

A. G. and Bennie Oefinger were here from Yancey yesterday.

Will Miller of Hondo was a new Fountain visitor Tuesday.

Miss Annie Saathoff was here from Yancey Sunday visiting homefolks.

Mr. and Mrs. Henry Stiegler and Mrs. Amanda Muennink and children visited John Moehring's at the lower Hondo Sunday.

Mr. and Mrs. August Leinweber Jr. and Mrs. Katie Leinweber and daughters, Misses Helena and Hulda, of the upper Hondo visited Chas. Bendele and family last Sunday.

F. D. Neumann and family visited Mr. and Mrs. O. F. Neumann at Quihi Sunday.

L. A. Gerdes was a San Antonio visitor last week end.

Prof. August Myres was a pleasure and business visitor in New Fountain Monday. The writer has been informed that Prof. Myres will be the principal of the New Fountain school this next term.

Wm. Nagel, the tomb-stone man of Fredericksburg, was erecting monuments at Quihi over the graves of E. A. Bohlen and Mr. Grell Sr. and perhaps others.

Anton Folk of Thousand Acre was taken quite sick last Friday night and upon the advice of physicians was taken to San Antonio Sunday. We wish for the young man a safe recovery and early return.

Fritz Stiegler bought him a new Case automobile Saturday.

Ernest Nietenhoefer and sister, Miss Emma, of Quihi were Hondo visitors Tuesday.

Mr. and Mrs. Louis Metzger are visiting in Hondo today.

Mrs. Matt. Saathoff left last Friday for San Antonio to be at the bedside of her father, Aug. Schneider, who was reported very sick. Later, word was received that he died Sunday morning. Mr. Schneider was formerly a resident of this place from where he moved to San Antonio. He has been suffering with paralysis for several years.

Fritz Helmke and son, John, were Dunlay visitors today.

New Fountain, Texas, May 19, 1915.

NATIVE LIFE OF THE FAR PACIFIC.

The photograph shows the belle of the interesting Samoan village at the Panama-Pacific International Exposition at San Francisco. The structures in this village, comprising the native thatched huts of the Samoan, or as they were formerly called, the Navigator islands, were brought intact from the native villages and are absolutely faithful in all their features. There are many native families living in the village who for the edification of visitors perform the aquatic feats in which the islanders excel, and dance the rhythmic native dances. The life of the people of the Pacific ocean is wonderfully illustrated at the Exposition, and of all the races none are more interesting than the Samoans who exhibit many traces of Aryan descent. No Exposition visitor should fail to see these unique tribespeople.

There are so many things, best things, that can only come when youth is past, that it may well happen to many of us to find ourselves happier and happier to the last.—Eliot.

Managers of the

HONDO LAND CO.

HONDO, TEXAS

Invite the attention of Home Buyers and Real Estate Investors to the following list of Properties:

- 160-acre farm, two miles north-west of Hondo. Five-room house, barn and outhouses. Black waxy land, 150 acres in cultivation. \$60.00 per acre, half cash and balance on terms to suit purchaser.
- 200-acre farm, eight miles north-west of Hondo. Eighty acres in field, all fenced and tillable. Seven-room house, good well and wind mill.
- \$1750 cash takes a four-room house and two lots in the Brown-Woods Addition to Hondo.
- 8 1/2 acres of land, containing two good residences, store and saloon building, big dance hall and other buildings. Also good well and wind mill. \$7,000.00, half cash and balance on easy terms.
- 468 acres, live oak sandy land, practically level, all tillable, situated 1 1/2 miles south-west of Devine, good well and windmill, two good tenant houses, 135 acres in cultivation, all hog-proof fenced, enough timber to eventually pay for the land. Easy terms.
- 206 acres, mesquite loam land, situated 5 miles north of Devine, about 40 acres rough land, balance all tillable, adjoining Medina Valley Irrigation Co., all fenced and cross fenced, about 100 acres in cultivation, two tenant houses, good well and windmill. Easy terms.
- 250 acres, two miles north-east of Hondo, 200 acres in cultivation, good six room house, good well, windmill and water-works. A bargain at \$60.00 per acre on easy terms.
- 2 1-2 lots in Brown-Woods Addition to town of Hondo. Adjoining the Church of Christ property. A pretty southeast front. \$500 cash.
- 596 acres about 4 miles west of Yancey on the Frio road, soil black-sandy, all tillable and level, 230 acres in cultivation, 4 small houses, 2 good wells and windmills. \$25.00 per acre—\$3000.00 cash, balance to suit purchaser.
- 106 acres, live oak sandy land, all tillable, 2 miles north of vine, surrounded by the Medina Valley Irrigation Co.'s land, fenced, 96 acres in cultivation, one tenant house, good well and windmill. Easy terms.
- 426 acres, 10 miles east of Devine, 140 acres in cultivation, all good tillable land, one good tenant house, good well, 400 feet deep, inexhaustible water. Easy terms.
- Lots Nos. 1 and 2, Block 35, Los Angeles Heights, San Antonio.
- Lot No. 8 and west 3/4 of lot 7, block 57. Fine house and outhouses, Hondo. Old Fence place.
- Five lots in Hondo, good small house. Old Adolph Haass place.
- 116 acres, 4 miles northeast of Leslie, Searcy Co., Arkansas, for \$300 cash.
- Lot No. 11, Block No. 3, Hondo Springs Heights, Sonoma Co., California, for \$35.00 cash.
- A 50x150-ft. lot in Burnside Addition to Hondo, for \$250.
- Lots 11, 12 and 13, block 14, Los Angeles Heights Addition to San Antonio. Price and terms reasonable.
- Lot No. 12, block No. 311, Jourdan, Atascosa County, Texas, for \$100 cash or will trade for property of equal value in Hondo or D'Hanis.
- 500 acres, 4 1-2 miles west of Yancey, fenced and watered with water-holes, 43 acres in field, balance in pasture; 400 acres tillable. Price \$10.00 per acre and on easy terms.
- 830 acres black mesquite land, 8 miles south east of Hondo, 700 acres tillable, 300 acres in cultivation, good dwelling house and barns and 3 tenant houses, good well and windmill. This is one of the finest farms in Medina County.

**Grateful Mothers
Tell Experiences**

Mrs. T. Neureuer, Eau Claire, Wis., writes: "Foley's Honey and Tar Compound cured my boy of a very severe attack of croup after other remedies had failed. Our milkman cured his children of whooping cough. I recommend it to every one, as we know from our own experience that it is a wonderful remedy for coughs, colds, croup, and whooping cough."

Mrs. D. Gillespie, Youngstown, O., writes: "My little girl had a severe cold, and coughed almost continuously. I tried lots of cough remedies, but she didn't get any better. My sister recommended Foley's Honey and Tar Compound to me. The first dose I gave her relieved the inflammation in her throat, and after using one bottle the cough left her."

This sterling old remedy has been in use for years and is just as efficient for adults as for children. It gives relief for irritated and tickling throat, tight and sore chest, grippe and bronchial coughs.

W. H. WINDROW, Hondo
LOUIS CARLE, D'Hanis

**RHEUMATIC
SUFFERERS
GIVEN QUICK RELIEF**

Pain leaves almost as if by magic when you begin using "5-Drops," the famous old remedy for Rheumatism, Lumbago, Gout, Sciatica, Neuralgia and kindred troubles. It goes right to the spot, stops the aches and pains and makes life worth living. Get a bottle of "5-Drops" today. A booklet with each bottle gives full directions for use. Don't delay. Demand "5-Drops." Don't accept anything else in place of it. Any drug-gist can supply you. If you live too far from a drug store send One Dollar to Swanson Rheumatic Cure Co., Newark, Ohio, and a bottle of "5-Drops" will be sent prepaid.

Tired!

Are you tired? Run down? Nervous? Is everything you do an effort? No! It is not laziness. You are ill. Your system needs a tonic. Your Stomach, Kidneys and Liver need stirring up. Nothing will do this better than

Electric Bitters

50c. and \$1.00 All Druggists

A HAT PIN

that will add to the Beauty of a Hat is a Piece of Jewelry. In buying Jewelry make your selection from our stock. We have the Hat Pins to suit your Fancy, your new Hat and your Purse.

V. A. CROW
Hondo, Texas

**Look at Me
I am Well.**

"I cannot say too much for Peruna. It has entirely cured me of my trouble. My eyes lids were thick and red nearly all the time. My eyes were especially sensitive to light. Catarh was my trouble. I had had my eyes treated and took a great deal of medicine, but nothing seemed to help me until I tried Peruna. I always use Peruna when my family need it. Always find it very good; it helps wonderfully. You can use my testimonial anywhere you wish to." So says Mrs. C. Skehan, No. 614 S. Leavitt St., Chicago, Ills.

Noonan Notes.

Mrs. George Farris visited Devine Friday.

Mrs. Henry Kempf was a passenger to Lacoste Saturday.

Frank Lowe shipped a car load of onions Saturday.

A large crowd attended the dance at Natalia Saturday.

V. Crutchfield of Devine was in our midst Tuesday.

Jim Shelton is sporting a new buggy.

Frank Lowe was a Lytle visitor Wednesday.

Mrs. Slater and son, Otis, were in our midst Tuesday.

A large crowd from Lytle were fishing on the Chicon creek last week.

Mr. and Mrs. Keller and children and Mrs. Haegelin of Devine passed through our midst Saturday on their way to Lacoste. While crossing the Chicon creek they were almost drowned, but there were enough people on the creek to help them out.

Jim Kurken of Pearsall is the guest of Mr. and Mrs. Pierce for a few days.

Noonan, Texas.

White Man With Black Liver.

The Liver is a blood purifier. It was thought at one time it was the seat of passions. The trouble with most people is that their Liver becomes black because of impurities in the blood due to bad physical states, causing Biliousness, Headache, Dizziness and Constipation. Dr. King's New Life Pills will clean up the Liver and give you new life. 25c at your Druggist.

Sabinal Sentinel Siftings.

A. E. Clayton of Vanderpool went to Hondo last week and purchased a Ford car, the new 1915 model.—Utopia Cor.

T. E. Wyatt went to San Antonio last Saturday.

Mrs. Ann Reinemer returned Sunday night from Hondo.

Mrs. Jacob Reinhart returned Tuesday from Seco where she has been with Mrs. Arthur Rothe.

Isidor Marks returned Tuesday from San Antonio. He is considerably better.

Miss Myrtle Marlin of Hondo, who has been visiting the Ahlhardt's for a week or so, left Monday evening for home.

Mrs. Deckert, who was visiting her daughters, Mrs. Robert and Mrs. Oscar Shane, returned last Friday evening to her home in D'Hanis.

Mrs. Jacob Reinhart is at home after a week's visit to her granddaughter at Seco.

Miss Hettie Reily went to D'Hanis Wednesday to attend the wedding of Miss Maude Hanley and Mr. Walter Rothe.

Mr. and Mrs. Frank Hoog spent Sunday in Uvalde.

Rolf Balzen has purchased a fine Studebaker automobile of the Harrison Garage at Sabinal.—Knippa Cor.

Man Takes His Own Medicine Is an Optimist.

He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for Nature to act. You can't destroy a Cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery today.

The man who married for beauty only is like the buyer of cheap furniture. The veneer that caught his eye will not stand domestic service.

Infection in the Air.

Medical authorities agree that colds are infectious. In some cities children with colds are barred from schools. Spring's changing weather brings many colds. The quickest and safe way to stop colds, coughs and croup is to give Foley's Honey and Tar Compound. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

**CASTROVILLE
ANVIL SPARKS**

This Department is in charge of our Authorized Agent for Castroville—
ED. H. HUEHNER, Editor
who is authorized to collect and receipt for money due this paper and to whom items intended for this page should be submitted.

Charles Steidle of Camp Verde spent several days with his brother, Henry Steidle, and family.

Mrs. Louis Scherrer and daughter spent Monday in San Antonio.

Little Miss Ruby Tondre has been on the indisposed list this week.

Quite a number from here attended the picnic at Qaibi Sunday.

Mrs. Albert Tachirhart and children of Noonan spent Friday with F. Kifhorn and family.

Mr. and Mrs. Louis Mangold and children spent Sunday at Lacoste.

Jos Conrad and sons, Joe and Claude, of San Antonio spent Saturday here.

J. J. Rihn spent Sunday at Lacoste.

Mr. and Mrs. Alex Boehme and little daughter of Riomedina and Mr. and Mrs. Gerhart Ihnken of Chicon were guests of Mrs. Mary Kempf Sunday.

Mrs. Batot of D'Hanis visited Joe and William Brieden this week.

Mr. and Mrs. Alfred Mann and son, Oran, spent Sunday with Mr. and Mrs. Louis Mehr at Bader Settlement.

Mrs. Joe Huesser returned to her home in Hondo Thursday.

Mrs. Chas. Marty and baby spent several days in San Antonio.

Mr. and Mrs. Oscar Dingel and baby of San Antonio spent several days with Mrs. John Vollmer Sr.

Mr. and Mrs. George Mangold, Miss Lucile Koonitz and Lorine Pinn of Lacoste visited here this week.

Miss Mamie FitzSimon returned to San Antonio after spending several weeks with her parents, Dr. and Mrs. J. T. FitzSimon.

At the St. Louis Catholic Church Mr. Robert E. Haby and Miss Elma Lieber were happily united in the holy bonds of matrimony on Tuesday morning, May 18, 1915. Rev. Father Heckmann performed the nuptial ceremony. The attendants were: Mr. Fred Lutz and Miss Louise Haby and Mr. Hugo H. Haegelin and Miss Hulda Haby. After the ceremony the bride's party repaired to the hospitable home of the bride's mother, Mrs. Dom. Lieber of Riomedina, where a sumptuous wedding dinner was very much enjoyed and the rest of the day was pleasantly spent in feasting and celebrating the happy event. We join in wishing the happy young couple a long, happy and most prosperous married life.

Mr. and Mrs. Ed. Hans and son, Harry, were Alamo City visitors Monday. Likewise Mr. and Mrs. Henry Vonlie on Tuesday.

Bill Haby was down from his ranch at Rio Frio on a visit to kinfolks and friends the middle of the week. Bill is sure looking fine.

The sad news reached here Tuesday morning that C. L. Marty had been knocked down by a switch engine at the railroad yards at San Antonio and was severely bruised. Mrs. Marty left at once to join her husband at the hospital. We wish Charley a speedy recovery.

Sheriff J. F. Bader was noted on our streets one day this week.

A team from Stumberg and our boys crossed bats on the Castroville diamond Sunday afternoon. We learn our boys were defeated.

Mrs. Lucy Scherrer and daughter, Miss Florence, left this morning for the Alamo City.

Castroville, May 24, 1915.

Some Forms of Rheumatism Curable.

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a 25c bottle now. Keep it handy in case of emergency.

Square dealing is the business man's sun of success. By walking directly toward it all shadows are behind.

"Slowed up" at Middle Age.

The hard working kidneys seem to require aid sooner than other internal organs. At middle age many men and women feel twinges of rheumatism, have swollen or aching joints and are distressed with sleep disturbing bladder ailments. Foley Kidney Pills are safe, prompt and can be depended on to give relief. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

Give the best you've got to the boss and your wife; the rest is good enough for you.

LACOSTE DOTS.

Items of Interest Culled from The Herald.

Master Everett Luckenbach celebrated his second birthday Saturday with a jolly crowd of little playmates.

Mr. and Mrs. L. C. Luckenbach have as their guest this week their sister, Miss Elizabeth Hart of San Antonio.

Mrs. Theresa Mangold and daughter, Mrs. Otto Jungman, and Mr. Henry Mangold and wife were Castroville visitors one day last week.

Paul Jungman, Ed. Schmidt, Gus Keller, W. A. Luckenbach and Louis Salzman were fishermen at the Chicon Dam last week.

Mrs. Wm. Biediger and daughter of Spindletop, were visitors here this week.

Miss Nora Loesberg of San Antonio was the guest of homefolks Sunday.

Ed. Ehinger and family of Devine spent a few days with Joe Zuercher and family.

Mr. J. L. Mangold and wife, Mrs. M. A. Kauffman and daughter, Miss Ida, spent Sunday with relatives at Devine.

Mrs. Joe Tschirhart, Sr., of Noonan, was the guest of Mrs. Henry Mangold the past few days.

Mr. Bilhartz and family of Biry spent several days with Conrad Loesberg and family.

Mrs. E. F. Hillard and children left Thursday for Liberty on an extended visit to relatives and friends.

Mrs. Theresa Mangold entertained her friends with a quilting party Thursday.

Messrs. Ed. Schmidt, Gus Keller and Joe Conrad went to the Medina dam Saturday on a fishing trip and came back Monday with about 65 pounds of fish.

Messrs. E. F. Hillard, Geo. Schuehle and Misses Lucie Crane, Regina and Elenora Mangold took a spin to Castroville Tuesday night.

Mr. F. E. Luckenbach and sons of San Antonio were out to visit relatives here Saturday. Sunday they motored to the dam in company with L. C. Luckenbach and family.

Mr. F. R. Dickey made a business trip to San Antonio Tuesday.

Miss Helen Jungman of Devine spent several days with homefolks here.

Chas. Moeller & Sons shipped a large monument from here to New Braunfels Tuesday. It took four men and a good wagon and team to get it to the depot. C. H. Moeller, Jr., will put the monument up.

Miss Eva Hawkes entertained a few of her little friends Monday evening in honor of her tenth birthday. Various games were played and refreshments were served.

Miss Elizabeth Biediger was a San Antonio visitor Sunday.

Mr. Chas. Zinsmeyer and wife and Miss Lena Weyand are spending a few days in San Antonio.

Mrs. A. H. Ahr of Cline visited her parents, Mr. and Mrs. W. H. Hawkes, for a few days. She was accompanied home by Miss Helen Hawkes, who will be her guest for some time.

Mr. Fred Hawkes of Spofford spent Sunday with homefolks here.

Mrs. Frank Keller and Miss Ida Conrad were San Antonio visitors Friday.

Mr. Henry Salzman and family spent Sunday with Grandma Biediger at Spindletop.

Mr. Otto Greeven and wife of Chicon were pleasant callers here Saturday.

Farmers' Institute at Tilden.

Tilden, Tex., May 21.—A farmers' institute was organized here last night with about twenty members by Fletcher Davis, field agent of the State Department of Agriculture, who spoke on soil preparation and conservation of moisture. He said that so long as farmers in some of the Northwestern States found it profitable to grow crops on land where the moisture has to be conserved through two seasons to produce a crop one season there is no occasion to despair of the agricultural possibilities of Southwest Texas, where the rainfall is more abundant. He said that the time is rapidly approaching when all the tillable land in Texas will be available for producing crops through a proper system of dry farming.

The Institute organized by electing L. T. Shannon, president; John H. Byrne, vice-president; John Martin, secretary, and A. S. Kaykendall, entomologist.

Messrs. L. T. Shannon and John Martin were elected delegates to the meeting of the State Farmers' Institute at Austin July 27, 28 and 29.

Whole Family Dependent.

Mr. E. Williams, Hamilton, Ohio, writes: "Our whole family depend on Pine Tar-Honey." Maybe someone in your family has a severe Cold—perhaps it is the baby. The original Dr. Bell's Pine-Tar-Honey is an ever ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the Germs, and allows Nature to act. At your Druggist, 25c.

**HUSBAND RESCUED
DESPAIRING WIFE**

**After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.**

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in 30 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn. 345. Enclosed instructions on your use and 64-page book, "Home Treatment for Women," sent in plain wrapper.

Pearl BEER

WITHOUT A PEER
Still Beats All Others
San Antonio Brewing Association

**CALOMEL IS MERCURY! IT SICKENS!
ACTS ON LIVER LIKE DYNAMITE**

**"Dodson's Liver Tone" Starts Your Liver
Better Than Calomel and Doesn't
Salivate or Make You Sick.**

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tone on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful to-night and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can't salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

**TAN-NO-MORE
AND
FRECKLELEATER**

Two of the most Scientific Beautifying Agencies Known.

**TAN-NO-MORE
THE SKIN BEAUTIFIER**

The scientific combination of Cream and Powder. Delightful in appearance and pleasing in its effect. Used during the day it is a protection from the sun and wind. In the evening its use assures a faultless complexion.

Experience has taught us that the best way to apply Tan-No-More is to put it on very wet and wipe off with a soft towel at once and do not wait for it to dry.

50 AND 35 CTS.

FRECKLELEATER CREAM

For the removing of Liver Spots, Freckles, Ring Worm and all kindred blemishes of the skin. It will bleach the skin in 10 days and make it as smooth and soft as a baby's.

She Knows What She Wants

The well informed housekeeper objects to the use of alum in food. She might read in an advertisement or be told that it was all right in the quantities used, but in the end she would merely ask, "Do you mean to say that these baking powders contain alum?"

If the answer, however qualified, were in the affirmative, that would be enough. She would not buy it. Why?

Because she knows that cream of tartar has always been accepted as the most wholesome product for raising cake and biscuit, and she wants a baking powder made of cream of tartar, like Royal.

This conclusion is the result of unconscious absorption, either her own or her mother's, of the opinions of the highest authorities on hygiene and home cooking.

The prudent housekeeper looks at the ingredients printed on the label. She knows what she wants.

ROYAL BAKING POWDER CO.
New York

Behold, the Fun Trinity!

SID CHAPLIN, CECILE ARNOLD AND "SLIM" SUMMERVILLE
KEYSTONE (MUTUAL) FUNMAKERS

Sid Chaplin, now referred to as the funniest man in the world, is one of the chief comedians in the Keystone comedies, famous the world over on the Mutual program. The scene above demonstrates Mr. Chaplin's abilities as an apple catcher at a picnic.

LORRAINE HULING
IN "MOVIE FANS"
A NEW FALSTAFF (MUTUAL) RELEASE

PRETTY FALSTAFF STAR HAS SCORED IN MANY ROLES
Regarded as one of the most beautiful and talented young actresses in filmland, Miss Lorraine Huling, who has lately joined the Thanhouser forces to be featured in ingenue parts, is a claimant for distinction in still another sphere of endeavor, namely, in art circles.

In the latter sphere of artistic accomplishments, Miss Huling scored an irrefutable reputation for her work in conjunction with such celebrities of the art world as Charles Dana Gibson, Charles Penfield, Irving Wiles and others equally as well known.

Although she gained notable comment for her work in photoplays such as "The Unwelcome Mrs. Hatch," "A Bachelor's Romance" and "The Straight Road," it remained for Miss Huling to rise to her greatest triumph as the stenographer in "Movie Fans," a Falstaff domestic-comedy drama, to be released in the Mutual program. In this photoplay, Ernest Ward, the famous Falstaff lead, plays opposite Miss Huling.

Before taking up a career as a movie actress, Miss Huling had won a distinct success on the legitimate stage, having appeared in prominent parts in companies headed by some of our greatest actors and actresses.

"Movie Fans," deals with the love of a shipping clerk in a great commercial house for the pretty stenographer. She is seeking a career as a star of the screen. He is intent upon gaining fame as a scenario writer.

Finding that neither is fitted for the worldly position they seek, they marry and settle down to devote their time and affection to their beautiful baby girl.

BRUNETTE OR BLONDE

Girl Always Dreamed of Light-Haired Lover, Got Dark One.

By HARMONY WELLES.

(Copyright, 1915, by the McClure Newspaper Syndicate.)

During the 18 months of her engagement and preparation for her marriage Martha had never quite become reconciled to the fact that she had chosen for a life partner a man of brunette type. Always, from her earliest dreams of love, she had pictured a mate whose hair reflected the glory of the sun and whose eyes were blue—blue as the night sky.

But alas for ideals when flouted by facts. Martha had fallen in love with David McVicker, and his hair was as black as the raven's wing and his eyes were the deep brown of the Arab's dusky orbs.

"Oh, dear!" she sighed, "I seem to get so weary looking at dark hair." Martha cast a fleeting glance at her reflection, which revealed tresses as black as the shadow of the mountains and eyes only less dark because of the glow of dull red within their lovely depths. "But I suppose since I am to sail Saturday for London and to meet David again, I had better cheer up and forget my golden-haired knight of fancy."

Martha had not seen David McVicker for 18 months.

Martha blushed over the fact that she had succumbed to David's wooing after a scant two weeks' acquaintance, one of which had been spent on shipboard. After a second week David had returned to his native land, leaving Martha with a most lovely solitaire on her finger and a more or less startled acknowledgment of her engagement.

The six months that were expected to intervene between meetings had dragged into 18, and it was with slightly lessened enthusiasm that Martha made preparation for the long-delayed trip.

When the New York sailed into British waters and the mail came on board Martha got a letter from David in which he regretted the fact that he could not meet her at Liverpool. He had been sent to Belfast for at least three weeks on business. Martha sighed, but was not desperately disappointed. David had informed her that Andre Lequeux, a Belgian, who was stopping with him, would meet her and pilot her safely to London. Martha found herself wondering what Andre Lequeux would be like, and thinking that she would rejoice in knowing anyone from the now famous country of Belgium. She pondered on the question as to how he would be able to find her among the passenger list, but Martha had not reckoned on David having provided Lequeux with a photograph.

It was not difficult then, upon reaching the wharf at Liverpool, to find herself facing a most wonderfully golden-haired young man who introduced himself as Andre Lequeux. Martha smiled and enjoyed the firm grip of the Belgian's hand. She smiled again inwardly when she observed that his eyes were the deep blue of the night sky. If she sighed, Andre did not know that she was comparing him favorably with her dream man of past days.

Lequeux seemed a most capable person and had seen to her luggage, and a customs inspector had put her and her small bags on the train before Martha quite realized it. She found his slightly foreign accent delightful, and realized that she was going to like David's friend very much indeed.

The trip up to London passed without event, save a swift sense of understanding between Lequeux and the girl to whom David was engaged. The Belgian did not leave her until he had seen her comfortably ensconced in the little private hotel in Holland Park.

After that it seemed as if all life centered in that which concerned Andre Lequeux. Perhaps it was the absolute calmness with which he accepted the fact that he was a refugee, deprived of his home and robbed of the business he had built up in Antwerp that first attracted Martha to him. He had been in the civil guard at the time of the bombardment of Antwerp and after seeing his home and his business premises blown up by the enemy's shattering shells he had come to England—that haven for all refugees. David McVicker had taken Lequeux into his home and friendship.

The state of affairs began to look ominous. Martha knew that she could never marry David. She had fought desperately against the charms of the Belgian but her struggle had been useless. It was as if a mighty torrent had rushed down from the mountainside and swept her completely into its keeping. Apart from his being the ideal of her youthful dreams in physical beauty he possessed a gentleness of manner, a keen sense of humor and personal charm that Martha loved in spite of herself.

As for Lequeux, the situation was tragic. He had never before loved a girl and now fate had elected to rob him of home, business and the right to tell that girl that he loved her. Life seemed a queer medley of untold sorrow to him, but his smile was as ready and his manner as gentle as if the world of joy lay before him.

It was beginning to be most difficult to follow David's instructions in the matter of entertaining Martha. Lequeux was forced into the girl's

presence through David's desire that she be not lonesome while in London and until he himself returned to take her about. More and more the Belgian was falling in love with David's girl, but he was constantly on guard lest he betray his secret and thus precipitate a crisis that meant a final separation from David and David's sweetheart.

In the meantime, David, over in Belfast, had lost his heart to a little Irish girl and felt himself a cad. The long time that had passed since seeing Martha had worn down the enthusiastic desire he had felt for her and now only a deep regard, such as he would have felt for his brother's wife, remained. David cursed himself and his fickle nature, but knew not how to stem the current of events that seemed likely to hurl him and Martha over the matrimonial borders. He felt vaguely that Martha was not desperately in love with him and that it would not break her heart were he to be quite frank with her, but David recoiled from the hurt he might inflict. The little Irish girl smiled upon him and David's business held him another fortnight in Belfast.

Martha had intended to wait until his return to London before terminating her engagement to David. Upon learning of his intention to remain away from her another two weeks, she felt as if this would be a good opportunity. She wrote him a letter which blamed him not a little for his neglect of her—blamed him for having placed his friend in such a position. And then she told him everything. It was hard to post the letter and yet Martha could not help feeling that the hurt would not be severe; if David had cared so much he could have found excuse for seeing her before this.

It was five days before she received her answer—David had been unable to put his answer to her letter on paper. He had wanted to be honest with her—to tell her all as frankly as she had told him. And it had been difficult.

When Martha read the letter telling of the little Irish girl she laughed. The Belgian was in the room when she received it and he had asked permission to read David's letter.

"It's an Irish girl!" she said. "The Belgian started. 'What—David?' he asked, as if he had been guessing at the truth. Martha nodded.

"Write him that it's—a Belgian—with you," he laughed.

Martha blushed. "I—I've already done it," she confessed. And then she explained everything to him to his entire satisfaction.

Wanted to Know Her.

Ida Hamilton, who will be recalled by lovers of clever acting for her splendid work with Mrs. Fiske and other dramatic actresses, is now at the Little theater in Philadelphia, where she has been winning high honors. The other evening she went to the fashionable hotel for a cup of tea, and as she walked down Broad street could not help overhearing the conversation between two women who had just witnessed a performance. One observed that she had enjoyed the play immensely.

"And I wish that I knew Miss Hamilton. I would give anything in the world if I knew her."

Miss Hamilton determined to gratify her desire, so she approached and announced herself.

"Are you Miss Ida Hamilton? Miss Hamilton of the Little theater?"

"I am," was her modest reply. "Oh, I am so glad to see you," she pushed. "I have so wanted to know you. Won't you tell me the name of your dressmaker?"

Science and Patriotism.

No nation has done greater service to science than the German. And the world of science, which is cosmopolitan, not national, gladly and freely recognizes it. But does anyone who knows anything of the conditions of scientific work suppose that work would not have been done by Germans unless there had been a German empire? To state the notion is to refute it. A man of science may be a patriot, but his patriotism has nothing to do with his science. He goes to learn where he can learn best, and to work where he can work best; and the result of his work is a treasure, not for his country alone, but for mankind.—G. Lowes Dickinson in the Atlantic Monthly.

Funds for Infant Welfare Work.

New York city spends \$250,000 annually in infant welfare work. For this purpose the city of Chicago appropriates only \$4,000 a year. The claim is made by those who profess to know that if that city were to spend \$125,000 a year for this purpose, virtually all of the 7,000 babies who die in Chicago each year might be saved, the money value representing the saving in human lives being estimated at \$7,000,000. Private organizations such as the Infant Welfare society of Chicago have shown how baby lives may be saved, but if further progress is to be made, it is averred, the work must be concentrated in the municipality.

At the Presbyterian Church.

Rev. C. S. Long, the pastor, preaches at 11 o'clock, a. m., every 4th Sunday. Rev. C. M. Licklider preaches every 1st Sunday at the same hour.

Presbyterian Sunday School at 10 o'clock a. m., every Sunday.

The public is invited to attend all of the services of the church.
